

Stakeholder Analysis Worksheet 1

A stakeholder analysis is a way of organizing information about the living people and groups who play a role in an issue. There are many ways to do stakeholder analyses; for this assignment, use the chart below as a guide to considering characteristics of key stakeholders in this unit's issue. Summarize your thoughts in this table and include your full writeup on the next page or on a separate document. Feel free to add rows or delete a couple if you find it beneficial to your project to do so.

Stakeholder	Concerns about the Past and Present	Goals or Hopes for the Future
